SUBJECT: **STATUS REPORT ON KEY INDICATORS OF  
PROGRESS, HOSPITAL OPERATIONS, AND OTHER  
ISSUES RELATED TO THE TRANSITION TO THE  
NEW LAC+USC MEDICAL CENTER – PROGRESS  
REPORT #32 (Agenda Item #S-1, March 30, 2010)**

This is to provide your Board with the bi-monthly report on the status of transitioning to the new LAC+USC Medical Center (LAC+USC). This report is the full monthly operational report with trends to include the month of February 2010.

**Census Trending (ADC includes Psychiatric & Newborn Patients)**

The Average Daily Census (ADC) for the month of February was 592 out of 671 licensed beds, an estimated 86% utilization rate (88% occupancy). Thus far, this ADC was the highest for the fiscal year, along with the month of August 2009. The census for Medical/Surgical units was an estimated 92% utilization rate (94% occupancy) for February 2010.

[www.dhs.lacounty.gov](http://www.dhs.lacounty.gov)

**Emergency Department (ED) Indicators**

Key indicators in the attachment demonstrate the trending of ED registrations as well as admissions to both the ED and the hospital. Several factors, such as Median ED Boarding Time and ED Diversion, have increased during this period, which was directly related to census. Similar increases have been noted in the past when census fluctuated upward.

**Transfers Out and Average Length of Stay (ALOS)**

Consistent with the increased census, the number of transfers out to Rancho Los Amigos and other hospitals increased to accommodate the number of patients requiring hospitalization. Previously, the overall measure of ALOS reached as high as 6.2 days/patient against a target of 5.5 days/patient. This is primarily due to the fact that low-acuity patients are transferred out to other facilities while higher level, tertiary care patients requiring longer stays remain hospitalized at LAC+USC. Efforts to reduce this trend have been very successful during the past 3 months with the ALOS hovering between 5.4 – 5.6 days/patient.

Therefore, ambulances often arrive while “on diversion”.</li></ul>
